Dear Customers,

**VICT: VGM Weight Discrepancy Fee for Export Container & Reefer Temperature Discrepancy Fee.**

Dear Customer,

Effective 1 June 2023, customers are advised that VICT will implement:

**VGM Weight Discrepancy Fee for Export Container of AUD 200 per container (subject to GST).**

This Charge will apply to all containers determined by the Pondus Stand to have a weight variance greater than 1 metric tonne within the documented VGM. The fee is to ensure the correct weight of the container is documented for safe discharge and collection from the terminal by the nominated transport operator.

It is the shipper's responsibility to ensure the correct weight of the container is documented prior to loaded/discharged.

VICT will provide the Container Operator with the access to the amended weight confirming the weight difference.

**Reefer Temperature Discrepancy of AUD 75 per container (subject to GST).**

This fee will apply on Reefer Containers that have a Temperature variance greater than 3 degrees Celsius from the Temperature provided to the terminal on the PRA.

The fee is targeted to ensure Reefer are set at the correct Temperature prior gate in and minimise the temperature variation on Reefer cargoes. It is the shipper's responsibility to ensure the Reefer is set at the correct temperature.

After carefully considered the options, it was agreed that it's appropriate to charge this fee to the VICT customer closer to the shipper.

The Weight Amendment Fee for Export Containers and Reefer Temperature Discrepancy for Export will be charged to the Container Operator.
