VICT Industry Notice - Infrastructure Charge

Dear Customer,

Effective 1st July 2023, customers are advised that Victoria International Container Terminal (VICT) will be adjusting the Infrastructure Charge from \$ \$161.35 (subject to GST) to \$177.48 (subject to GST) per full container.

The Infrastructure Charge will apply to full import and full export containers.

VICT has seen a considerable increase in costs to the business, and there is a need to recover part of the costs associated with the landside operations that will enable us to continue to provide an efficient service to our customers.

VICT has continued to maintain a sub 37-minute gate to gate truck turn time over the last twelve months even though there has been more activity within our gates.

VICT is investing \$235m in our terminal which will further enhancement our landside service levels. The investment consists of six Auto Stacking Cranes (ASC's) which will create additional 3 storage blocks and additional 15 truck lanes, 6 Auto container Carriers. This investment in infrastructure will boost our vehicle booking system time slot offerings to the market by up to 30% per hour and will be operative in the 4th quarter 2023.

VICT is a proud supporter and participant of the Victorian Department of Transport Voluntary Pricing Protocol and invites all parties to submit their questions and queries relating to the Infrastructure Charge to customer@vict.com.au.

Yours truly,

A handwritten signature in blue ink that reads "Olga Coelho Heubert".
